

As a mayoral candidate committed to putting Houston first, my top priority is the safety and security of our residents. To achieve this, I present a comprehensive plan that strategically enhances law enforcement efforts, strengthens community partnerships, and implements intervention programs to safeguard our city. By fostering collaboration between law enforcement, community leaders, and residents, we can build a safer Houston for everyone.

### **1. Enhancing Law Enforcement Efforts**

- Increase the presence of police officers in high-crime areas to deter criminal activities and respond promptly to incidents.
- Invest in advanced technology and training for law enforcement personnel, enabling them to handle emerging challenges effectively.
- Establish regular feedback mechanisms between the community and law enforcement to address concerns and improve accountability.

### **2. Strengthening Community Partnerships**

- Foster strong community-police relationships through community engagement initiatives, town hall meetings, and neighborhood watch programs.
- Establish Community Policing Units, where officers work closely with community members to identify and address local issues.
- Collaborate with community organizations, religious institutions, and schools to build bridges of trust and promote a sense of collective responsibility for safety.

### **3. Implementing Intervention Programs**

- Invest in evidence-based intervention programs that target at-risk youth and individuals involved in criminal activities.
- Provide resources for after-school programs, mentorship initiatives, and job training opportunities to divert young people from the path of crime.
- Enhance rehabilitation and reintegration programs for individuals with a history of criminal involvement, helping them transition into productive and law-abiding citizens.

### **4. Promoting Restorative Justice**

- Encourage restorative justice practices that focus on healing and reconciliation for both victims and offenders.
- Support diversion programs that offer alternatives to incarceration, especially for non-violent offenses, while addressing the root causes of criminal behavior.
- Work with local courts to implement restorative justice approaches that prioritize rehabilitation and community restoration.

## 5. **Improving Communication and Transparency**

- Enhance communication between law enforcement and the community through community policing forums and transparency in departmental policies.
- Provide clear information to the public about law enforcement protocols, rights, and responsibilities.
- Establish an independent oversight board to review complaints and ensure accountability within the law enforcement system.

Safeguarding our city requires a strategic and collaborative approach. By enhancing law enforcement efforts, strengthening community partnerships, and implementing effective intervention programs, we can build a safer Houston for everyone. As your mayor, I am committed to working with law enforcement agencies, community leaders, and residents to prioritize safety and security. Together, let us create a Houston where everyone can live, work, and thrive in a safe and welcoming environment. Join me in this vital endeavor to safeguard our city, putting Houston first in every decision we make.
